

Assembly Instructions

Thank you for your purchase.

Please follow the instructions below for correct assembly.

Safety and Care Advice

IMPORTANT - Please Read This Instruction Carefully Before Assembly.

- Check you have all the components and tools listed on page 3.
- Do not stand or put weight on the product, this could cause damage.
- Do not use power drill/drivers for assembly, or the unit may be damaged.
- Remove all settings from the plastic bags and separate them into their groups.
- Assemble the item as close to it's intended position(in the same room) as possible.
- Assemble on a soft level surface to avoid damaging the unit.
- Dispose of all packaging carefully and responsibly.
- Keep children and animals away from the work area, small parts could choke if swallowed.
- Make sure you have enough space to layout the parts before assembly.
- Parts of the assembly will be easier with 2 people.

CARE and MAINTENANCE

- Only clean using a damp cloth and mild detergent, do not use bleach or abrasive cleaners.
- From time to time check that there are no loose screws on this unit.
- This product should not be discarded with household waste. Take to your local authority waste disposal center.

General Hints & Tips

Components and Tools

IMPORTANT - Please Check If You Have All The Components and Tools.

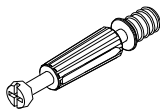

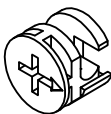

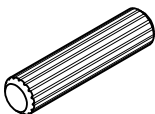

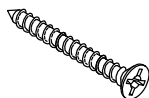

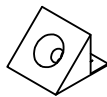

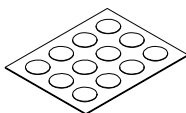

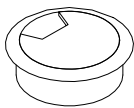

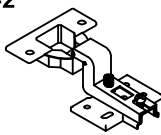

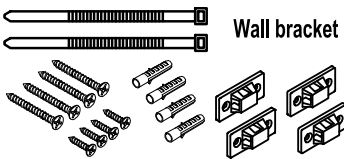

Note: The quantities below are the correct amount to complete the assembly. In some cases more pieces may be supplied than are required.

Customer Attention:

To align doors and control gap in between doors.
Product doors may need adjusting during
and after assembly.
This can be done by adjusting appropriate screws.
See below illustration.

Vertical door adjustment:

Loosen both screws on all hinges and lift the
door to the desired height.
This allows an even space at the top and
bottom between the door and frame

Lateral Door Adjustment:

If door is hinge bound, (rubbing on frame as you
close or open door) loosening screw shown and
move the door in appropriate direction. (In or out)

D  **4PCS**

Horizontal Door Adjustment:

Rotate Screw clock wise or anti clock wise. This
will produce an even gap between doors and frame.

after adjusting, you find the doors are in alignment,
you can fasten that hinge with 2 screws
